Hearing aids can help people hear better but not all problems can be solved with hearing aids.

The Signia
Primax
is now available
in the small CIC
style.

**Small
Sophisticated
Chip**

**Independently
Owned & Operated**

ATTENTION STATE AND FEDERAL EMPLOYEES, RETIREES, AND THEIR SPOUSES

Did you know that your benefits may cover a new hearing aid purchase up to 100% of its cost?

As Blue Cross/Blue Shield, United Health Care, Aetna, and AARP preferred providers, our highly trained staff can fit your hearing loss with either "Completely-in-the-Canal" or "Open fit BTE" hearing aids. If you have one of these insurances, they will cover a portion, if not all of the cost incurred by updating your technology.

If you've been considering hearing aids, the time to act is now. The Primax is the FIRST hearing aid of its kind. It is clinically proven to make you hear better than someone with no hearing loss in noisy environments. We are letting you try it **100% FREE** with no money down for 14 days. **But you must hurry!** We only have 24 sets of these revolutionary devices in our clinic, and once they're gone it may be weeks before we get more.

Dr. David Levy
David H. Levy, Au.D.

Recent studies have shown that untreated hearing loss has been associated with far more overall health quality of life than we ever before imagined. It's been linked to **Alzheimer's, Dementia, Depression, Diabetes, and Cardiovascular Disease**. The immediate cost to untreated hearing loss is typically conflict and tension with your friends and loved ones.

Founded on the ideals of providing cutting-edge technology, compassionate patient care, and luxurious service, I am always searching for a way to make my patient's lives better. These new Siemens instruments are the first hearing instruments that have been clinically proven to help the wearer understand even better and with less effort than normal hearing persons with no hearing loss, up to certain background noise levels. These ultra-discreet, high performance devices are customized specifically for you.

"Hearing Loss **IMPACTS** More Than You May Think!" - Dr. Levy

DEATH/MORTALITY

Hearing loss tied to greater risk of dying for older men

ALZHEIMER'S & DEMENTIA

Dementia risk may be up to 5X higher with hearing loss
